### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 17 April 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 24-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gross et al U.S. Patent Number 5,848,991 in view of Berner et al U.S. Patent Publication 2003/0104052.

Gross et al discloses a method for treatment of a patient suffering from a condition, comprising the steps of providing a delivery device (2) adapted to deliver an amount of a drug beneficial for the treatment of the condition, establishing at a given time a fluid communication between the delivery device and the body of the patient, and discontinuing the fluid communication between the delivery device and the body of the patient, and wherein the fluid communication is provided by arranging the delivery device against a skin surface of the patient (see abstract) and the fluid communication is disconnected by removing the infusion device from the patient, and wherein the fluid communication is established during sleep, the drug being

Art Unit: 3763

infused substantially corresponding to a period of sleep; and wherein the drug is insulin-containing (col. 4 line 55 and col. 6 line 56); and including a reservoir (10) having an outlet (24), the reservoir (10) adapted to contain an amount of a liquid drug, expelling means (14), actuating means (30), wherein the expelling means upon actuation performs a cycle of expelling a pre-determined amount of drug.

Gross fails to explicitly disclose that the drug is delivered during a period of approximately 7-9 hours and discontinued after 7-9 hours.

Berner et al discloses a similar method in which a drug is delivered during a period of approximately 7-9 hours and discontinued after 7-9 hours (paragraph 0126).

It would have been obvious to one having ordinary skill in the art at the time of invention by the applicant to modify the method of Gross et al by incorporating the drug administering time of approximately 7-9 hours as taught by Berner et al in order to avoid repetitive dosages.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 24-29 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
